

*Hi from the Junior Fun Church
at Fareham Methodist Church*

If you look around the room, how many metal things can you see?

Some metals are magnetic. You may have some fridge magnets. The picture below shows some home-made fridge magnets. At the end there will be a link to a video showing you how to make one.

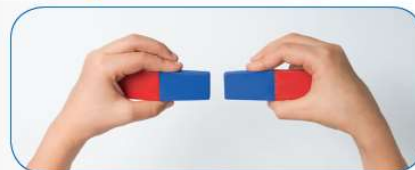

Jesus is like a magnet. Just as a magnet attracts metal, so Jesus attracted people to him who wanted find out more about God. If we allow ourselves to be drawn closer to Jesus, we can know him better.

Repel

Attract

The pictures above show two magnets. Opposite poles attract and the same type will repel which means push away. Jesus doesn't want us to push him away, he wants us to be attracted to him and follow his way.

Have a good week everyone!
